DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-9 are, drawn to a process or method of managing a set of portfolios wherein a set return distribution is generated for each portfolio.
 - II. Claims 10-18 are drawn a system or apparatus for investing in an account portfolio for an on-line user as a function of the selected account and objective type.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process of invention I can be practiced by an apparatus which at least (i) generates a set of portfolios, (ii) generates a set of return distribution and (iii) provides to an online investor a return distribution. This apparatus (invention I), therefore is distinct from the apparatus of the invention II which is not capable of performing these processes.

3. 5. A telephone call attempt was made on May 02, 2006, to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
